

Below you will find a list of local clinicians who recently attended a training, Treating the First Responder, to assist them in gaining additional knowledge and understanding to help them better support our local first responders. The clinicians are listed based on the number of years' experience they have as a licensed clinician.

Please note, the asterisk next to a clinician's name indicates that individual works for an agency that has a contract with the Huron County Board of Mental Health and Addiction Services. All clients that receive services from contracted agencies, upon intake, provide documentation that allows them to access the Board's Sliding Fee Scale. The Board's Sliding Fee Scale determines client costs by family size and income, helping them with out-of-pocket costs. Additionally, through the Board's Client Rights policy, the Board has oversight with contracted agencies to ensure client rights are protected.
